Description:

Review "I don't usually write reviews, but this one really drew me to write one. This book is excellently written. The author really knows his craft." -*Alex Buie*

"After reading R.A. Salvatore, Terry Goodkind, Mercedes Lackey, Brent Weeks, Robert Jordan, E.E. Knight, and numerous other fantasy novels, "A Fox Tail" will always be among my favorites. It is a must read for any furies."

-*SiDrakkon*

From the Author One of the most powerful concepts I've ever encountered considering the art of writing came from science fiction author Robert E. Howard, creator of the Conan the Barbarian series. His books have little to do with my narrative style, but the power of the protagonists and antagonists are similar. In musing on his characters, he confessed that he did not feel as though he

was creating stories about them, but that they were telling him their stories, standing next to him.

This is how I felt when writing A Fox Tail. It started first as Polar telling me about his thoughts as a handsome and brilliant wolf, and suddenly he catapulted me into his life and I learned a great deal very quickly. He already knew Vulpie and described him to me, and I was consumed into a vast world. Unlike other stories I've written, Polar and Vulpie's history didn't seem to come from me at all and the entire time I recorded it and am still recording it today as I write the sequel, I feel left behind, as if I'm only now catching glimpses of the amazing things they've been through and how everything has changed behind them.
