Description:

It's the dawn of a new age in *Acts of God*, book three in the Christ Clone Trilogy. Mankind is seemingly on the brink of its greatest adventure, as people evince psychic powers, miraculous gifts of healing, and the ability to recall past lives. Christopher's blood is injected into those willing to receive "the mark," with unusual results, and those who refuse are hunted down and decapitated. As the final battle between Yahweh and Christopher draws to its conclusion, Decker Hawthorne begins to have doubts about the powerful world government he's invested in. Don't miss the exciting

conclusion of the Christ Clone Trilogy. --*Cindy Crosby* --This text refers to an out of print or unavailable edition of this title.
