Description:

Review <DIV>"Herland is utopia with a smlle, a gentle, witty version of what women can be. As fascinating to women for what it omits entirely as for what it discovers and invents for us, it is a fast and invigorating read." - --Marge Piercy</div>

From the Inside Flap On the eve of World War I, an all-female society is discovered somewhere in the distant reaches of the earth by three male explorers who are now forced to re-examine their assumptions about women's roles in society. --This text refers to an alternate edition.
