Description:

Review In the high-stakes profession of neurosurgery, the bigger you are, the harder you fall. Or so it seems in the nifty first novel by CNN's chief medical correspondent Gupta, who is also a practicing neurosurgeon and nonfiction author. At the Chelsea General Hospital in Michigan, Dr. Ty Wilson is suffering from a serious crisis in confidence after a child dies during an operation. His medical colleagues include George Villanueva, a hulking former NFL player turned ER doctor, and Tina Ridgeway, a meticulous neurosurgeon whose home life is a mess. For quirkiness, there's a patient

who undergoes surgery for bleeding cerebral aneurysms and develops an unusual postoperative mania for sketching human ears. For irony, the perfectionist head of surgery makes a jumbo mistake, and a middle-aged Korean neurosurgeon is afflicted with a deadly brain tumor. Despite their flaws, these fictional physicians possess extremely high empathy quotients. They make clinical and personal blunders, yet some attain redemption, and nearly all experience epiphanies. You don't have to be a brain surgeon to write a novel, but with Monday Mornings, readers will be glad one did. **(Booklist)**

Praise for CHEATING DEATH: "You will be on the edge of your seat as you read the superbly crafted stories of people who have beaten the odds, something I like to think I know quite a bit about. My friend Dr. Sanjay Gupta, America's doctor, has written a page-turner. It's an exciting medical thriller with the compassion, hope, excitement and aspiration that define Sanjay." --**Lance Armstrong**

Praise for CHEATING DEATH: "I owe my recovery and my health to medical advances and the remarkable pioneers behind them. In his new book, the World's Doctor, Sanjay Gupta, delivers a breathtaking preview of a coming revolution in medicine that challenges virtually everything we think we know about living and dying. A truly provocative and fascinating reading experience." --**President Bill Clinton** --This text refers to the edition.

About the Author Sanjay Gupta, MD, is a practicing neurosurgeon at Emory University Hospital and associate chief of service at Grady Memorial Hospital in Atlanta. --This text refers to the edition.
