#### **Description:**

Get quick access to the most important information surrounding cancer and oncology nursing care

with **Mosby's Oncology Nursing Advisor, 2nd Edition**. Covering everything from the various types of cancer and cancer treatment options to patient education and nursing best-practices, this indispensable nursing guide is like getting seven books in one! Plus, its user-friendly layout and straightforward coverage make it ideal for use in any clinical setting. With 17 new chapters, updated evidence-based content throughout, and proven patient teaching handouts, this new edition offers the authoritative guidance you need to provide the best possible oncology nursing care.

- Detailed descriptions of over 50 major cancer types provide essential information on incidence, etiology and risk factors, signs and symptoms, diagnostic workup, histology, staging, treatment, prognosis, and prevention.
  - **Coverage of cancer management principles** outlines a wide range of treatment and pharmacologic modalities, including surgery, chemotherapy, radiation therapy, hormonal therapy, immunotherapy, and complementary and alternative therapies.
  - **Symptom management guidelines** offer in-depth coverage of pathophysiology, signs and symptoms, assessment tools, lab and diagnostic tests, differential diagnoses, interventions, patient education, follow up care, and resources for over 30 common symptoms associated with cancer and cancer treatments.
  - **Essential information on many oncologic emergencies and emergent issues** prepares readers to respond quickly to structural, metabolic, and hematologic emergencies.
  - **Section on palliative care and end-of-life issues** offers helpful guidelines for dealing with topics related to survivorship, palliative care, the final hours of the cancer patient, and loss, grief, and bereavement.
  - **NEW!** Updated evidence-based content reflects the latest national and international quality standards regarding various cancer types, major drug and non-drug treatments, treatment protocols, and approaches to symptom management.
  - **NEW! Nursing Practice Considerations section** incorporates information on communication, cultural considerations, ethical considerations, safe and quality care, evidence-based practice, patient navigation, and patient education.
  - **NEW! 17 new chapters** cover topics including myelofibrosis, neuroendocrine cancers, tumor treating fields, oral adherence, clinical trials, epistaxis, hypersensitivity reactions, hypertension, hyperglycemia, nail changes, ocular and visual changes, rashes, survivorship, quality and safety, evidence-based practice, nurse navigation, and patient education.
  - **NEW! Expanded content on patient education** keeps readers on top of best practices in this critical area.
  - **NEW! High-quality electronic patient teaching handouts** are evidence-based and have been vetted by practicing nurses.
