*Overall, the book is well written and easy to read. The basic points of each topic are concisely explained with the salient facts and illustrated with clear, thoughtful, well-placed, and appropriately labeled images, tables, and figures. -- **Journal of Neuro-Ophthalmology***

*The authors have excelled in making this book a wonderful teaching tool for a broad audience....This is a truly wonderful addition to any medical library. -- Doody's Review (starred review)*

*Neuro-Ophthalmology Illustrated, Second Edition*, is an up-to-date, beautifully illustrated text that guides readers in recognizing signs and symptoms, localizing pathology, developing a differential diagnosis, and selecting a management strategy. The content in this new edition reflects the most recent advances in neuro-ophthalmology.

Key Features:

- Includes more than 900 full-color images, line drawings, and charts that help readers understand these complex conditions
- Written by two of the most prominent neuro-ophthalmologists in the world, with a combined 40 years of teaching experience
- Offers step-by-step guidance on performing examinations and covers disorders of the visual afferent system, the pupil, ocular motor efferent systems, and the orbit and lid

This second edition of *Neuro-Ophthalmology Illustrated* is a handy reference for ophthalmologists, neurologists, and neurosurgeons as well as an ideal resource for residents preparing to take board examinations in these specialties.
