Description:

From This first installment of a projected trilogy should keep readers glued to their seats. Art dealer John Madison risks his life to carry out his recently deceased brother's quest to locate an ancient relic that was stolen from Iraq's National Museum (the story is set in 2003, when the museum was looted and damaged during the American military actions in the country). What Madison doesn't know—but he's about to find out—is that the relic could hold the key to unlocking the secrets of alchemy, the ability to turn metal into gold. This exciting and fast-paced novel, which was published to enthusiastic acclaim in Canada, winning the Arthur Ellis Award for Best First Crime Novel, is tailor-made for the ever-increasing numbers of historical-mystery fans. Highly recommendable to

fans of James Rollins, Steve Berry, Clive Cussler's Fargo Adventures, and Raymond Khoury (whose novel *The Sanctuary* involved Baghdad circa 2003, but in a very different way). --David Pitt

McIntosh is articulate, literate, and scary."—Alan Bradley, bestselling author of *The Sweetness at the Bottom of the Pie* "*The Witch of Babylon* is at once a complex art-history mystery centered on biblical scholarship, a breath-stealing thriller set in the early months of the Iraq invasion, and an intellectual exploration of links between Mesopotamian myths and European alchemical processes."—*Mystery Writers Ink*

"More erudite than Dan Brown's *The Da Vinci Code*, McIntosh's complex thriller incorporates notes about Babylonian and Mesopotamian cultures plus a bibliography."
