**From the Publisher** When **Wilderness Press published Sierra North in 1967, no other trail guide like it existed for the Sierra backcountry. The first run of 2800 copies sold out in less than two months and its success heralded the beginning of Wilderness Press. In the past 35 years, we have expanded our territories to cover California, Alaska, Hawaii, the U.S. Southwest, the Pacific Northwest, New England, Canada, and Baja California.**

Wilderness Press continues to publish comprehensive, accurate, and readable outdoor books. Hikers, backpackers, kayakers, skiers, snowshoers, climbers, cyclists, and trail runners rely on Wilderness Press for accurate outdoor adventure information.

In its Top Trails series, Wilderness Press has paid special attention to organization so that you can find the perfect hike each and every time. Whether you're looking for a steep trail to test yourself on or a walk in the park, a romantic waterfall or a city view, Top Trails will lead you there.

Each Top Trails guide contains trails for everyone. The trails selected provide a sampling of the best that the region has to offer. These are the "must-do" hikes, walks, runs and bike rides, with every feature of the area represented.

Every book in the Top Trails series offers:

- Maps and permit details
- Easy-to-follow trail notes
- Distances and approximate times
- Ratings and rankings for each trail
- The Wilderness Press commitment to accuracy and reliability

All books in the affordable and easy-to-use Top Trails series feature elevation profiles, detailed maps, driving directions, and "don't get lost" trail milestones. Innovative trail-feature charts give at-a-glance information on which trails are child-friendly, which allow horses, where to catch a glimpse of bison, elk, or a grizzly, where to see wildflowers and autumn colors, which trips have the best photo opportunities, and which have camping opportunities. Each park receives more than 3 million

visitors annually. --This text refers to an alternate edition.
